Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application has been further restricted as it still contains claims directed to the following patentably distinct species of the claimed invention:
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.
 - A. The embodiment where the fluoropolymer is polytetrafluoroethylene.
 - B. The embodiment where the fluoropolymer is perfluoroalkoxy.
 - C. The embodiment where the fluoropolymer is fluorinated ethylene propylene.
 - D. The embodiment where the fluoropolymer is fluorinated terpolymer of tetrafluoroethylene.
 - E. The embodiment where the fluoropolymer is hexafluoropropylene.
 - F. The embodiment where the fluoropolymer is vinylide fluoride
3. Upon Election of one of inventions A-F, applicant is further required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.
 - a. The embodiment where the fishing line comprises a pigment.
 - b. The embodiment where the fishing line does not comprises a pigment.
4. Upon Election of one of inventions a or b, applicant is further required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Art Unit: 3644

- I. The embodiment where the core material has been surface modified.
 - II. The embodiment where the core material has been provided with a coating material.
5. Upon election of inventions I-II, applicant is further required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.
- i. The embodiment where the core material has at least one filler material.
 - ii. The embodiment where the core material does not include a filler material.
6. If invention II above is elected, applicant is further required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.
- AA. The embodiment where the coating material has at least one filler material.
 - BB. The embodiment where the coating material does not include a filler material.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, e.g. A, a, I, i, AA, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the

Art Unit: 3644

limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
